The above Model Portfolio returns are not for the purpose of Schedule 21 of the Financial Markets Conduct Regulations (FMC Regulations). To view Model portfolio returns after fees and before tax (as required by Schedule 21 of the FMC Regulations) please refer to the last page of this document.

Select returns do not include any management fee rebates which may apply, or imputation credits. This along with other factors such as the timing of deposits or withdrawals and the exchange rates which applied at the time of any transactions means that actual returns may vary amongst individual investors.

The performance figures provided by each Fund Manager are made up of Gross of Tax and Net of Fee returns where available. Where unavailable, Gross of Tax and Gross of Fees or Net of Tax and Net of Fee returns have been used. The current details of the Selected Portfolio weightings are available at selectwealth.co.nz/selected-and-gbp-portfolios.

Information and Disclaimer:

This report is prepared by the Select Manager, Select Wealth Management Limited. It is for information purposes only. It does not take into account your investment needs or personal circumstances and so is not intended to be viewed as investment or financial advice. Should you require financial advice you should always speak to your Authorised Financial Adviser.

The price, value and income derived from investments may fluctuate because values can go down as well as up and investors may get back less than their initial investment.

Past Performance is not indicative of future results and no representation or warranty, express or implied, is made regarding future performance. Fee and minimum investment amounts may change from time to time. This report has been prepared from published information and other sources believed to be reliable, accurate and complete at the time of preparation. While every effort has been made to ensure accuracy neither Select Wealth Management Limited, nor any person involved in this publication, accept any liability for any errors or omission.

The above returns are fund manager performance returns. Select Fees and Adviser Service Fees have not been deducted from the returns.

Refer to the Select Investor Information booklet for details of these fees. Footnotes:

1. Performance figures were Net of Tax and management fees until 30 September 2007. Post 30 September 2007, returns are Gross of Tax and net of management fees and are in NZD.
2. Performance returns are Gross of Tax and Net of Fees.
3. Performance returns are Gross of Tax and Net of Fees. Fund returns are based on local currency returns provided by fund manager and converted to NZD using FX rates at close of business at month end.
4. UK Listed trust. Total returns assuming dividends are reinvested. Please see fund fact sheet for further details.
5. Performance Returns are Gross of Tax and Gross of Fees.

Investment Style

AA = Alternative Asset. These are investments outside of the main investment asset classes which are cash, bonds and shares.

AR = Absolute Return. These are investments managed without regard to the relevant index for that asset class with the objective of generating positive returns in any market conditions.

G = Growth. These investments are selected on the basis that they have the potential to grow more than similar alternatives.

I = Income. These investments are primarily for the generation of a reasonably predictable income.

V = Value. These investments are selected on the basis that they represent good value relative to similar alternatives.

MS = Multi-Style. These funds invest in a range of investments with complimentary investment styles to try to reduce volatility through the different market cycles.

P = Passive. This is a passive selection of securities that tracks a market index. Such a fund invests in all, or a representative number, of the securities within the index.

Returns calculated on NTA movement, assuming distributions reinvested on payment date, after tax and management fee

Managed Funds Fees:

Fund Managers deduct their fees from the value of the funds they manage. These fees are detailed in the relevant Investment Statement. For most managed funds, these fees are calculated and deducted from the gross value each fund's assets and are generally reflected in the unit price. However, each managed fund follows its own particular rules and you should read the relevant Investment Statements carefully to ensure that you understand the fees applicable at Fund Manager level, and that you do not rely solely upon this general commentary.

In some cases, fees are deducted from income distributions e.g. group investment funds investing in mortgages. The Select Manager receives no part of the Managed Funds fee.

In most cases, the Select Manager has negotiated reduced annual management fees with the fund managers represented on Select Wealth Management.

Where applicable, these lower annual management fees are usually reflected as a reduced fee or as a rebate provided by the applicable fund manager which is paid to the investor's cash holding account.

Information and Disclaimer:

This report was prepared by the Select Manager, Select Wealth Management Limited. It is for information purposes only. It does not take into account your investment needs or personal circumstances and so is not intended to be viewed as investment or financial advice. Should you require financial advice you should always speak to your Authorised Financial Adviser.

The price, value and income derived from investments may fluctuate because values can go down as well as up and investors may get back less than originally invested.

Past Performance is not indicative of future results and no representation or warranty, express or implied, is made regarding future performance. Fee and minimum investment amounts may change from time to time. This report has been prepared from published information and other sources believed to be reliable, accurate investment amounts may change from time to time. This report has been prepared from published information and other sources believed to be reliable, accurate in this publication, accept any liability for any errors or omission.

Schedule 21 of the FMC Regulations requires certain information to be provided to clients. This information is included below.

This shows the returns that have been generated by each investment strategy in the past. Returns are before fees and before tax, and after fees but before tax, as detailed. Your actual portfolio will differ from the portfolio that generated these returns. **Important:** it does not tell you how the investment strategy will perform in the future.

The returns below are composite time weighted returns calculated on all portfolios invested in each investment strategy. To find more details on the investment strategies, you can view the portfolio fact sheet available at <https://selectwealth.co.nz/selected-and-gbp-portfolios>.

* This return has been calculated net of the actual Select Fee and the actual Adviser Service Fee. However, depending on the value of your portfolio, and the fee that you have agreed with your adviser, this may change. For more information, please see the Investor Information booklet section on fees.

Selected portfolios are reweighted quarterly and the assets and their weightings can change each quarter. For more information, please see the Investor Information booklet.
